

LOVE FESTIVAL

Created on March 14, 2024 by Jennifer ENDSFELDZ NAKASATO

I wanted to create an event that would celebrate the Love of my town and bring people together, so I organized a "Love Festival."

I wanted to ensure that everyone in Sao Joao Climaco felt loved and appreciated. To achieve this, I decided to organize an "elegant mail" where residents could send letters or notes to other people to share good feelings and make others feel loved.

I wanted to feature lovely songs, and create a cuisine fully with dishes that make the people feel warm and happy.

The main square has been adorned with colorful and love decorations representing different ways of love.
